EXPERIENCE

Intern .NET Developer | HQSOFT

3/2025 - 5/2025

Developed web interfaces with Ext.NET and ASP.NET MVC, handled forms, data binding, and performance optimization. Resolved customer issues through ticket-based support(L2 Support) Sabeco.

PROJECTS

Department & Personal Task Tracking System

10/2024 - 12/2024

Role: Leader, Full-Stack | **Team:** 5 members

• **Description:** Task management for teams/individuals with real-time tracking, internal chat, reminders, and role-based access.

• **Technologies:** ASP.NET Web API(Onion Architecture), React, Redux Toolkit, SignalR, SQL Server, Azure, Redis, Quartz.

• **Responsibilities:**

- Developed task assignment, tracking, and Gantt chart features.
- Integrated messaging, reminders, and email notifications.
- Built real-time updates (SignalR), role-based access control, dynamic permission, and deployed on Azure.

• **Github:** Frontend: 📄 | Backend: 📄

ChatApp

3/2025 - 5/2025

Role: Full-Stack Developer | Personal Project

• **Description:** Real-time chat app with private/group messaging, friend system, history, and ChatGPT-powered Q&A.

• **Technologies:** ASP.NET Web API, ELK Stack, SignalR, WebRTC, SQL Server, Redis, React, Redux Toolkit, OpenAI API, RabbitMQ, Google OAuth2, reCAPTCHA.

• **Responsibilities:**

- Built real-time chat (private/group), friend system, media/file sharing, notifications, and 1-1 video calls.
- Integrated ChatGPT for smart QA and enhanced conversation experience.
- Implemented Redis, RabbitMQ, SQL Server health checks and centralized logging with ELK stack.

• **Github:** Frontend: 📄 | Backend: 📄

E-commerce Clothing & Footwear System

11/2024 - 1/2025

Role: Full-Stack Developer | Personal Project

• **Description:** E-commerce platform for clothing and footwear with PayPal checkout, chat support, and customer reviews.

• **Technologies:** ASP.NET MVC, SignalR, SQL Server, jQuery, Bootstrap, Cloudinary, SendGrid.

• **Responsibilities:**

- Built product/user management and live chat support.
- Developed cart, checkout, and confirmation email flow.
- Added rating/review system and deployed with Redis.

• **Github:** 📄
